

2% CARBON REDUCTION PLEDGE

QUUF, winter 2008

As a Unitarian Universalist concerned about Global Warming, I choose to reduce my carbon footprint by 2% this year (and each following year until 2050)*, through whatever means best fit my household and my lifestyle (see list of suggested changes at: <http://www.quuf.org/opsmanual/admin/PersonalEnergyActions.pdf>.)

I will measure my carbon footprint at <http://www.l2020.org/uploads/File/docs/energy/Carbonftprint.xls> (or with any other published carbon calculator on the web or in print) to establish my baseline first.

I do this in response to our UU seventh covenant, Respect for the interdependent web of all existence of which we are a part, and out of my concern for generations to come.

*The QUUF Green Sanctuary Committee has a goal of encouraging 50 people to make this pledge. Timeframe is from 9/1/07 to 9/1/08 for your reductions.

Please return this pledge form to the basket at the back of the sanctuary or email Mike Morrissey that you have taken the pledge, at mtmorrissey@cablespeed.com
